Unlock Imaginations with Thomas Wooden Railway

Thomas Wooden Railway™ brings the beloved stories of Thomas & Friends to life, providing little engineers with a rich world to discover and explore.

Featuring real wood construction, the Thomas Wooden Railway™ system is designed to grow with a child's increasing ability and creativity. As a child's skills develop, add more track, vehicles, destinations and accessories to grow their world and their fun!

Use this yearbook to keep track of your collection of Thomas Wooden Railway™ toys and to see all of the great stories you can create.

New Friends

Look who's pulling into the station! Say hello to the new arrivals in Thomas Wooden Railway™!

Mud-Covered Thomas

While Thomas tries to help rebuild Great Waterton in **The Great Discovery**, he chases a runaway freight car down an abandoned mine, bursts through a tunnel and ends up on a hillside covered in mud and leaves. LC99015

Proteus

Proteus was a very old engine on Sodor with a bright lamp that could be seen for miles. Legend has it that if any engine found his lamp, their wishes would come true. LC99047

Flora & Tram Car

Flora is a new steam tram on Sodor. She's very proud to share the steam tram duties with Toby. She and Toby are great friends! LC98009

Hank

Hank is a very strong engine with a big, bold personality to match. Even though he may seem intimidating, Hank is always a good friend to the other engines. LC98010

Smudger

Smudger works on the Mid-Sodor Railway. He likes to show off and often rides roughly. LC98011

Duke

The oldest and most experienced of the Island's engines, Duke enjoys teaching others the proper way to do things. LC99139

Duncan

Duncan keeps busy and means well. Duncan is famous for singing, swaying and swiveling around. LC98014

Flatbed
flips
up!

Isabella

Isabella is a vintage truck who works with Jack and the construction team. She doesn't like to get dirty, but is a hard worker who always helps out the team. LC98012

Hippo
chomps
and Lion
roars!

Zoo Cars

New animals for the Sodor Zoo have arrived on the Island! As they are transported in their box cars, the lion roars and the hippopotamus chomps. LC99139

Activity Boxes

Look for these Activity Boxes throughout the book and have fun with the many puzzles and games.

Classic Friends

Thomas the Tank Engine

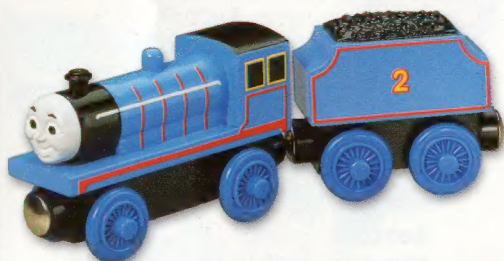

A cheeky little engine who gets into scrapes by doing things best left to bigger, more sensible engines!

LC99001

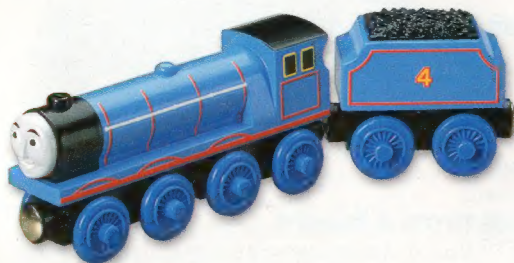

Edward the Blue Engine

An older engine, kind to everyone—even trucks and coaches! LC99002

Henry the Green Engine

A long, lean engine—can be high-strung and prone to illness. LC99003

Gordon the Big Express Engine

The fastest, most powerful engine on the rails—and proud of it. LC99004

James the Red Engine

A really splendid engine, if he doesn't say so himself!

LC98105

Percy the Small Engine

A chipper little chap who is happy to puff around the rail yard. LC99006

Toby the Tram Engine

Always eager to work, but can be temperamental, too! LC99007

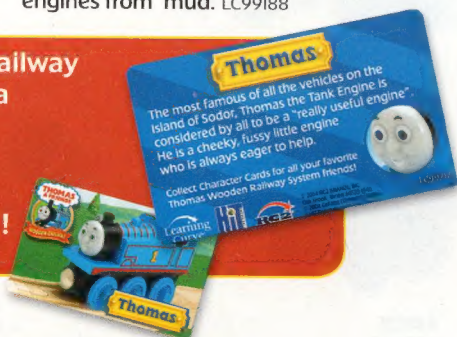

Emily

Emily is a beautiful engine with shiny paintwork and gleaming brass fittings. Sir Topham Hatt rewarded her with a brand-new pair of coaches after she rescued engines from mud. LC99188

Every Wooden Railway Vehicle includes a Character Card!

Collect them all!

The Thomas Team

Each of Thomas' friends has an important job to do.
Create your own team to get all the work done!
